

# HR Digital Transformation – the new era...

Zsolt Markus-Tamas

Technology and Integration Center

Our world today  
... is global ...

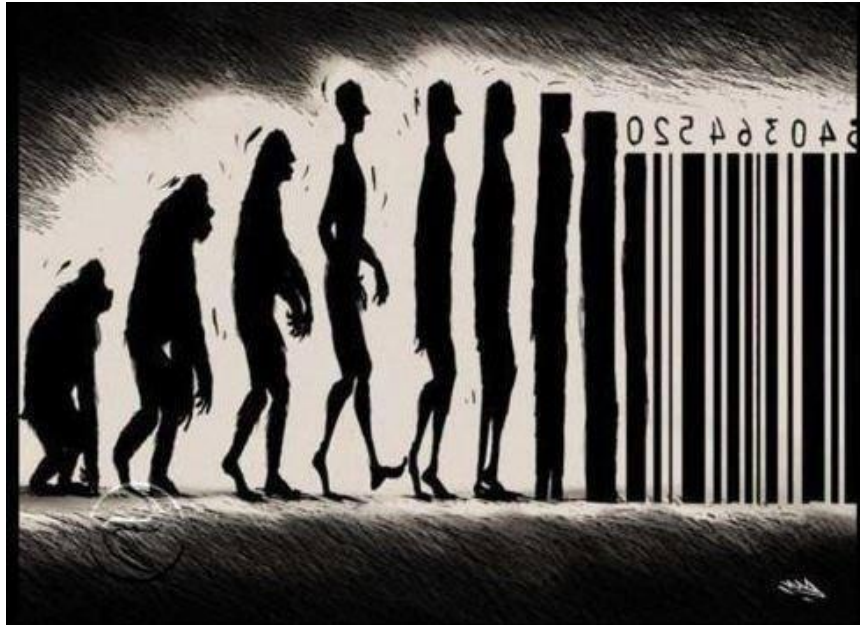

HR for business  
transformation

... is interconnected in the virtual space ...

... and is based on modern consumption rules.

Life becomes  
... more and more faster ...

... it's harder to identify the information behind the data ...

... and to find the right people to work with.

The enterprise world reshapes too  
... and does all her best to adapt the change ...
